

Bring your **Excel** and **Acumatica** worlds together!

- Report
- Budget
- Analyze
- Push
- Distribute
- Automate
- Govern
- Templates

Velixo is a modern reporting, budgeting and data automation software that seamlessly integrates with Acumatica from Excel, in real-time.

Fully self-service, with live, bidirectional connections to Acumatica, Velixo enables dynamic reporting & analysis of financials, operational and project data - all within the Excel you already know and love. Its features include report distribution and the ability to push data back to Acumatica, revolutionizing budgeting and data entry.

Fully native to Excel, Velixo harnesses the power of Microsoft 365, offering enhanced governance, AI-driven insights, better collaboration, and streamlined workflows.

Trusted by thousands of companies, we cover:

- Financial Reporting & Analysis
- Budgeting & Planning
- Consolidation
- Operational Reporting
- Project Accounting
- Construction Reporting
- Cost Forecasting
- Process Automation
- Bulk Data Entry/Upload
